14th November 2017

Dear Parents / Carers

As part of our Year 4 science unit 'Identifying Living Things and Their Habitats', we will be exploring the school field, the wildlife area, and the school pond on the search for bugs! We will be classifying them according to if they are vertebrates or invertebrates.

We plan to go bug hunting on Monday afternoon, 20th November, and would therefore like pupils to bring in a change of old clothes and suitable footwear, either wellies or old boots/trainers. The children will also need to have a waterproof coat.

If you have any questions about this activity, or any other aspect of your child's learning, please speak to us.

Thank you

Mrs Prevett and Mrs Terry
