Dear Parents/Carers

In Year One, children are required to undertake a Phonics Screening Test. In this process, children are assessed on their sound awareness and blending skills which they use to read. This assessment is carried out by an adult the children are familiar with and on a one-to-one basis.

In order to prepare the children and give them some extra support, we will be sending work home focusing on the sounds they have been learning that week. The homework will be a combination of real and nonsense words.

Please support your children by reading these words and identifying the different sounds within them. You are welcome to use the homework as you choose but we suggest you make it as fun as possible for your child. It would be valuable to your child's learning to practise reading a combination of sound fans, phonics homework and books across the week.

The Year 1 team are more than happy to advise and share guidance with you further if you request it, so please feel free to ask.

If you have any questions about this or any other aspect of your child's learning, please do not hesitate to ask.

Thank you for your support.

Yours sincerely

Miss Edwards & Miss Grabham
Year 1 Teachers
